CONTENTS: 20 Litres APVMA Approval No.: 86390/ 115665

DIRECTIONS FOR USE

Important: Prior to use read all directions on this label and on the label of the companion crop protection product. The product(s) label for the specific usage and restrictions have precedence over Directions for Use referred to on this label.

Koil Spray Adjuvant is compatible with a wide range of herbicides including:

Traktion 400 WG, Kenso Agcare Atrazine 900 WG Herbicide, Pinoxaden, Barnstorm*, Kenstrike, Kenso Agcare Bromoxynil 200 Selective Herbicide, Bmoxynil M, Kenso Agcare Dicamba 700 WG Herbicide, Cheetah Gold*, Conclude*, Decision*, Eclipse*, Fusilade*, Kenso Agcare Triclopyr 600 Herbicide, Ox 240, Ken-Zon, Grazon Extra*, Ken-Trel 300, Ken-Trel 750, Ken-Ester LV 680, Kenso Agcare MCPA 750, Sextant, Cletho 240, Cletho 360, Kenso Agcare Simazine 900 WG, Fluroken 200, Fluroken 333, Token 240, Bucko 242, Bucko 75-D, Haloxyken 520, X-Pand*.

Koil Spray Adjuvant is compatible with the following fungicide including:

Propi 250, Propi Super 500, Rebuke 430, fenbuconazole and triadimefon.

Granular formulations – when mixing with granular formulations, excellent agitation is required.

Situation	Critical Comments
Broadacre cropping including fallow (except sugarcane)	Where specified use 500ml Koil/100L water, applying a minimum of 250ml of Koil per hectare.
Sugarcane	Where specified use 1L Koil/100L water, applying a minimum of 500ml of Koil per hectare.
Spot and High Volume Spraying	Where specified use 500ml Koil/100L water, applying to the point of run-off.
Horticulture Koil is compatible with Haloxyken 520 for horticultural uses	Use 500ml Koil/100L water, applying a minimum of 250ml of Koil per hectare.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIOD: Adhere to the withholding period(s) specified on the label of companion product(s) used.

GENERAL INSTRUCTIONS

Mixing: These are the general mixing instructions. Always follow mixing instructions of each ingredient in tank-mix. Ensure product compatibility. Recommendations on other product labels take precedence over mixing instructions on this label.

- Add water to the spray tank to 10cm above the level of agitation and ensure the agitation device is working vigorously (there must be a minimum of 100L of water in the tank before any pesticide is added).
- If tank mixing, use the following general order for mix partners. First add water dispersible granules (e.g. Kenstrike), second add flowable formulations (e.g. Atrazine), third add emulsifiable concentrates (Haloxyken 520), fourth add water-soluble liquids (e.g. Ken-Trel 300) and last add Koil Spray Adjuvant.
- Between the addition of each ingredient allow at least one minute to ensure thorough mixing before the next tank-mix partner is added.
- Finally add Koil Spray Adjuvant. Continue filling the tank to the required volume agitating at all times.
- Only mix sufficient solution for immediate use. Haloxyken 520 and any other tank-mixes should be applied immediately for best results.

STORAGE OF SPRAY SOLUTION

Agitate for 1 hour every 8 hours, and agitate for 1 hour before spraying out where spray solution is not applied within 8 hours of mixing.

CLEANING SPRAY EQUIPMENT

The presence of product(s) makes it essential for the spray equipment to be cleaned between different applications. To rinse and decontaminate spray equipment refer to relevant product labels for instructions.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemical or used container.

Batch No.:

Date of Manufacture:

PRECAUTION: Explosion warning - Apparently 'Empty' containers may contain liquid and/or vapour residue, which can be explosive if exposed to an ignition source at temperatures above 90°C. Such conditions may occur during cutting or welding. DO NOT cut or weld these containers. Explosion may cause injury or death.

STORAGE AND DISPOSAL

Store in the closed, original container in a cool, well ventilated area. Do not store for prolonged periods in direct sunlight. DO NOT store near food, feedstuff, fertiliser or seed. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SMALL SPILL MANAGEMENT

Do not touch or walk through spilled material. Wear a face shield or goggles, overalls buttoned to neck and wrist, chemical resistant gloves and footwear. Stop leak when safe to do so. Dam area and prevent entry into waterways, and drains.

Small spills/leaks: Wear appropriate clothing whilst cleaning up small spills. Apply absorbent material such as earth, cat litter, sand or clay granules to the spill. Sweep up material for disposal when absorption is complete. Dispose of the contaminated material in accordance with local and/or State regulations.

SAFETY DIRECTIONS

Will irritate the eyes. May irritate skin. Avoid contact with eyes and skin. When opening the container, preparing the spray, wear elbow length PVC gloves and face shield or goggles. If product in eyes, wash it out immediately with water. Wash hands after use. After each day's use, wash gloves and face shield or goggles and contaminated clothing. When dealing with another chemical, consult the safety directions of the companion products.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet, which can be obtained from www.kenso.com.au.

CONDITIONS OF SALE

Kenso Corporation (M) Sdn. Bhd. will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by Statutes applicable to the sale or supply of these goods. To the extent allowed by such Statutes the liability of Kenso Corporation (M) Sdn. Bhd. is limited to the replacement of the goods or (at the option of Kenso Corporation (M) Sdn. Bhd.) the refund of the price paid and where possible sufficient part of the goods to enable proper examination being returned to Kenso Corporation (M) Sdn. Bhd. within thirty days of delivery.
