

MEPIQUAT XTRA 250

A new highly concentrated
PGR for cotton.

(Pack Sizes 20 L / 1000 L)

New MEPIQUAT XTRA 250 is a unique formulation of MEPIQUAT for the management of fruiting and vegetative growth in cotton

MEPIQUAT XTRA 250 is approximately 6.5 times more concentrated than older Mepiquat formulations meaning far lower application rates and significantly less transport, storage and handling.

1 x 20 L drum of MEPIQUAT XTRA 250 is equivalent to nearly seven drums of the common 38 gm/l formulations.

Rate Conversion of common label rates.

MEPIQUAT 38 (ml/ha)	MEPIQUAT XTRA 250 (ml/ha)
250	38
600	92
750	114
1000	152
2000	304
